Nguyễn Viết Trung

Project Coordinator / Project Manager Assistant

0941047713
nvtrung19.work@gmail.com
Ho Chi Minh City, Vietnam.
Porfolio: https://porfolio-mu-dusky.vercel.app/

SKILLS

- **Project Management:** Agile/Scrum Framework, Sprint Planning, Backlog Refinement, Risk Management, Stakeholder Communication, SDLC.
- **Business Analysis:** Requirement Elicitation, User Story Documentation, Process Modeling (BPMN, UML), UI/UX Wireframing (Figma), Functional Specification.
- **Interpersonal & Leadership:**Public Speaking & Presentation, Cross-functional Collaboration, Problem-Solving, Adaptability

TECHNICAL FOUNDATION

- **Languages & Core:** C#, .NET Framework/.NET Core, JavaScript (ReactJS, Node.js), Java (Spring Boot), SQL Server, MongoDB, Firebase, xUnit.
- **Concepts:** OOP, SOLID Principles, Clean Architecture, RESTful API, MVC, Waterfall.
- **Tools & Platforms:**
  - **Management:** Azure DevOps, Jira, Confluence, Lark Suite.
  - **Documentation & Design:** Draw.io, StarUML, Figma, MS Office.
  - **Dev Tools:** Git/Github, Postman, Swagger,...

SUMMARY

Software Engineering graduate with a unique blend of technical expertise and management skills. Proven track record of operating effectively in **dual roles as a Full-stack Developer (.NET, React) and Assistant Project Manager** in real-world production environments. Possess a strong ability to analyze business requirements and coordinate Agile workflows. Aspiring to leverage this technical-functional duality to transition into a **Business Analyst/Project Coordinator** role, with a long-term vision of becoming a **Project Manager**.

CERTIFICATIONS

Expected completion: Jun 2026

ECBA (Entry Certificate in Business Analysis) – IIBA | *Status: In progress*

Expected completion: December 2026

CAPM (Certified Associate in Project Management) – PMI | *Status: In progress*

EDUCATION

2021 - 2025

SOFTWARE ENGINEERING

Van Lang University

GPA: 3.28/4

WORK EXPERIENCE

Learning Chain

April 2025 - Now

ASSISTANT MANAGER(PROJECT COORDINATOR & BUSINESS ANALYST)

- **Coordinated project lifecycles** for Web3 Blockchain and AI training programs, managing schedules and resource allocation to ensure seamless workflow and on-time delivery.
- **Acted as a liaison** between Subject Matter Experts , Management, and Stakeholders to **gather requirements**, track project milestones, resolve operational **bottlenecks**.
- **Managed the quality assurance (QA)** of technical content and documentation, ensuring strict alignment with project goals and technical standards.
- **Monitored project execution metrics**, identified potential risks early, and implemented **mitigation strategies** to maintain project timelines and deliverable quality.
- **Oversaw technical environment setup** and resource readiness, ensuring high system availability and optimizing the user experience for training sessions.
- **Key Achievement:**
  - **Process Standardization & Improvement:** Spearheaded the transition from ad-hoc workflows to a structured **Agile framework** and established cross-departmental communication. Developed standardized **protocols and checklists for online sessions** to ensure full preparation (previously absent), creating a sustainable process that ensures **100% task visibility**.
  - **Tools Optimization & Automation:** Championed the adoption of **Lark Suite** to enhance team management and leveraged technical expertise to **develop an internal website** for centralizing training resources (Ebooks, Lesson Plans), significantly improving data accessibility and organization.

NashTech

March 2024 - March 2025

SOFTWARE ENGINEERING / PM ASSISTANT

- **Proactive Dual-Role Leadership (Training Phase):** Proactively volunteered to take on the Assistant PM role alongside Developer duties during the intensive training program (TCG Shop & Asset Management projects). Led Agile/Scrum ceremonies, refined backlogs in Azure DevOps, and closely tracked sprint progress to ensure timely delivery while contributing to .NET Core and React Vite development.
- **Production Project Extension (Zenfolio Phase):** Demonstrated a strong commitment to practical growth by proposing an extended tenure to join the real-world 'Zenfolio' project. Acted as a dedicated PM Assistant, coordinating directly with the production engineering team to bridge the gap between theoretical frameworks and live deployment.
- **Key Achievements:**
  - **Methodology Adaptability:** Gained deep, hands-on exposure to both Agile/Scrum and Waterfall methodologies in a production environment, learning how to tailor management approaches to specific project contexts rather than applying rigid frameworks.
  - **Cross-functional Collaboration:** Successfully navigated the transition from a training mindset to a professional problem-solving mindset, effectively supporting specialized roles within a high-paced software team.

Van Lang University

September 2022 - September 2023

TEACHING ASSISTANT FOR A BASIC PROGRAM COURSE

- Assisted the lecturer in delivering course content by guiding students through programming exercises and clarifying complex concepts during and after class.
- Provided personalized support to students, ensuring they understood fundamental programming principles and could apply them effectively.
- Helped prepare learning materials, coding examples to enhance class engagement.
- Facilitated smooth class operations by coordinating communication between students and the lecturer, addressing academic concerns promptly.

ADDITIONAL PROJECTS

VLU GYMZ || Team size: 5

Jan 2025 - May 2025

TEAM LEADER & FULL-STACK DEVELOPER

Description: Led a team of 5 to deliver a comprehensive Gym Management System. Successfully balanced project management duties—including requirement gathering, task planning, and sprint tracking—with hands-on full-stack development using the MERN stack to ensure high-quality delivery.

Technology Stack:

- **Front-end:** ReactJS
- **Back-end:** Express.js (Node.js) || **Third-Party:** Momo, GHTK, Nodemailer
- **Database:** MongoDB, Firebase Storage

VLU JobHunter || Team size: 3

June 2024 - July 2024

TEAM LEADER & BACK-END DEVELOPER

Description: Directed a team of 3 to build a comprehensive Job Recruitment Platform. Combined strategic planning and requirement analysis with hands-on backend engineering, utilizing Java Spring Boot to implement core features like resume parsing and real-time application tracking.

Technology Stack:

- **Front-end:** React Vite, TypeScript
- **Back-end:** Java, Spring Framework (Spring Boot, Security, JPA) || **Build Tool:** Gradle (Kotlin)
- **Database:** MySQL
