

Nguyễn Viết Trung

Project Coordinator / Business Analyst

- 0941047713
- nvtrung19.work@gmail.com
- Ho Chi Minh City, Vietnam.
- Portfolio: <https://porfolio-mu-dusky.vercel.app/>

SKILLS

Project Management & Delivery

- Agile/Scrum, Waterfall, Sprint Planning, Backlog Refinement, SDLC, Risk Management, Stakeholder Communication, Release Planning

Business Analysis

- Requirement Elicitation, BRD/URD/SRS Documentation, User Stories & Acceptance Criteria, User Story Mapping
- Process Modeling (BPMN, UML), Wireframing (Figma), UAT Coordination, Product Demonstration

Automation & Workflow

- n8n Workflow Automation, API Integration, Process Automation, Data Flow Design

Technical Skills

- Languages & Frameworks: C#, .NET Core, Java (Spring Boot), JavaScript (ReactJS, Node.js), xUnit, Selenium
- Databases: SQL Server, MongoDB, Firebase
- Data Analysis: SQL, Power BI, Data Visualization
- Concepts: OOP, SOLID, Clean Architecture, RESTful API, MVC, etc.

Tools & Platforms

- Project Management: Azure DevOps, Jira, Confluence, Trello, Notion, Lark Suite
- Documentation & Design: Draw.io, StarUML, Figma, Microsoft Office
- Development Tools: Git, GitHub, Postman, Swagger

Interpersonal Skills

- Communication & Presentation, Cross-functional Collaboration, Problem-Solving, Adaptability

CERTIFICATIONS

Expected completion: Jun 2026

ECBA (Entry Certificate in Business Analysis) – IIBA | *Status: In progress*

Expected completion: December 2026

CAPM (Certified Associate in Project Management) – PMI | *Status: In progress*

EDUCATION

2021 - 2025

SOFTWARE ENGINEERING

Van Lang University

GPA: 3.28/4

WORK EXPERIENCE

BB Stores

April 2026 - Now

ASSISTANT OPERATIONS DIRECTOR (PROJECT COORDINATOR & BUSINESS ANALYST)

- Digital Transformation & Agile Implementation:** Spearheaded the transition from manual, ad-hoc workflows (verbal communication, fragmented Google Sheets) to a highly structured operational model. Championed Agile methodologies and built a centralized management system on Lark Suite (Lark Base) to coordinate cross-functional efforts across Marketing, Sales, and Media teams.
- Operational Efficiency & Workflow Automation:** Completely resolved critical bottlenecks related to miscommunication and file loss caused by decentralized storage. Streamlined and automated workflows, significantly reducing administrative bulkiness and improving seamless collaboration across departments.
- Product Delivery & Revenue Impact:** Closely tracked project lifecycles and managed resources to ensure products were delivered on time, in the correct quantities, and up to quality standards. By maintaining a frictionless operational flow, directly contributed to stable operations and business revenue generation.

Learning Chain

July 2025 - December 2025

PROJECT COORDINATOR & BUSINESS ANALYST

- Agile Project Leadership:** Led end-to-end coordination for Blockchain and AI training programs, acting as the primary liaison among SMEs and stakeholders. Successfully transitioned the team from ad-hoc workflows to structured Agile/Scrum, which **boosted overall productivity by 30%** in the first quarter.
- Operational Optimization & Delivery:** Applied Work Breakdown Structure (WBS) to translate high-level objectives into granular tasks and managed cross-platform schedules.

NashTech

March 2025 - June 2025

Developed 10+ standardized protocols that **reduced session preparation time by 45%** (from 4 hours to ~2 hours) with **zero critical errors** across 50+ live sessions from July 2025.

- **Performance Tracking & Risk Mitigation:** Facilitated daily stand-ups and authored comprehensive reports to evaluate performance against OKRs and KPIs. Proactively monitored execution metrics and implemented mitigation strategies, achieving **100% alignment with project goals**.
- **Workspace Digitalization & System Building:** Championed the adoption of Lark Suite and Notion, achieving **100% team migration within 2 weeks**. Engineered a mini-ERP system that centralized 300+ training assets, successfully **cutting staff information lookup time by 60%** while maintaining consistent delivery quality.

SOFTWARE ENGINEERING / BUSINESS ANALYST ASSISTANT

- **Dual-Role Execution & Agile Management:** Served as both Developer and Project Manager Assistant for training projects (TCG Shop, Asset Management). Led Agile/Scrum workflows, managed backlog refinement, and tracked sprint progress via Azure DevOps, effectively tailoring Agile/Scrum and Waterfall methodologies to specific project contexts to ensure timely delivery.
- **Technical Engineering & Cross-functional Collaboration:** Engineered robust full-stack solutions utilizing .NET Core within a Clean Architecture, SQL Server backend, and React Vite frontend. Ensured high code quality through comprehensive xUnit testing while gaining hands-on production experience, sharpening professional problem-solving skills, and collaborating effectively across specialized roles in the software team.

Van Lang University

September 2022 -
September 2023

TEACHING ASSISTANT FOR A BASIC PROGRAM COURSE

- **Operational Coordination & Progress Tracking:** Acted as the primary liaison between the lecturer and 40+ students. Managed daily logistics, tracked performance metrics, and delivered timely progress reports to facilitate early interventions.
- **Mentorship & Documentation Management:** Mentored students on technical concepts and standardized course materials/guidelines, significantly optimizing the training workflow and reducing the lead lecturer's workload.

ADDITIONAL PROJECTS

English Language Center Management Website - AMAZING GROUP

January 2026 - March 2026

BUSINESS ANALYST - FREELANCE

- Spearheaded digital transformation by designing a centralized management website to replace fragmented Excel/Google Sheets workflows, preventing data loss and optimizing internal operations.
- Optimized system architecture and workflows through competitor analysis and detailed mapping of complex academic processes, defining core modules including scheduling, attendance tracking, performance evaluations, homework management, HR timesheets, and tuition collection.
- Authored comprehensive technical and business documentation.
- Bridged business and technical teams by overseeing feature implementation and providing hands-on coding support during critical sprints, ensuring all project milestones were delivered on time.

VLU GYMZ || Team size: 5

Jan 2025 - May 2025

TEAM LEADER & FULL-STACK DEVELOPER

Description: Led a team of 5 to deliver a comprehensive Gym Management System. Successfully balanced project management duties—including requirement gathering, task planning, and sprint tracking—with hands-on full-stack development using the MERN stack to ensure high-quality delivery.

Technology Stack:

- **Front-end:** ReactJS - **Back-end:** Express.js (Node.js) - **Database:** MongoDB, Firebase
