

Nguyễn Viết Trung

Project Coordinator / Business Analyst

 0941047713

 nvtrung19.work@gmail.com

 Ho Chi Minh City, Vietnam.

SKILLS

Technical Skills:

Languages & Frameworks: Python, C#, Java, JavaScript, React, Node.js, .NET Framework & Core, Spring.
Database: SQL Server, MySQL, MongoDB
Tools & Others: Git, Azure DevOps, xUnit, HTML/CSS, RESTful API
Concepts: OOP, SOLID, Clean Architecture.

Soft Skills:

Project Management: Agile/Scrum Methodologies, Sprint Planning, Resource & Timeline Estimation, Risk Management, Stakeholder Communication.
Business Analysis: Requirement Elicitation, User Story Documentation, Process Modeling (BPMN), UI Wireframing (Figma).
Tools & Technologies: Azure DevOps, Jira, Confluence, Git.

SUMMARY

Software Engineering graduate with a unique blend of technical expertise and management skills. Proven track record of operating effectively in **dual roles as a Full-stack Developer (.NET, React) and Assistant Project Manager** in real-world production environments. Possess a strong ability to analyze business requirements and coordinate Agile workflows. Aspiring to leverage this technical-functional duality to transition into a **Business Analyst/Project Coordinator** role, with a long-term vision of becoming a **Project Manager**.

WORK EXPERIENCE

Learning Chain

April 2025 - Now

ASSISTANT MANAGER(PROJECT COORDINATOR & BUSINESS ANALYST)

- **Coordinated project lifecycles** for Web3 Blockchain and AI training programs, managing schedules and resource allocation to ensure seamless workflow and on-time delivery.
- **Acted as a liaison** between Subject Matter Experts (Instructors), Management, and Stakeholders to **gather requirements**, track project milestones, resolve operational **bottlenecks**.
- **Managed the quality assurance (QA)** of technical content and documentation, ensuring strict alignment with project goals and technical standards.
- **Monitored project execution metrics**, identified potential risks early, and implemented **mitigation strategies** to maintain project timelines and deliverable quality.
- **Oversaw technical environment setup** and resource readiness, ensuring high system availability and optimizing the user experience for training sessions.
- **Key Achievement:**
 - **Process Standardization & Improvement:** Spearheaded the transition from ad-hoc workflows to a structured **Agile framework** and established cross-departmental communication. Developed standardized **protocols and checklists for online sessions** to ensure full preparation (previously absent), creating a sustainable process that ensures **100% task visibility**.
 - **Tools Optimization & Automation:** Championed the adoption of **Lark Suite** to enhance team management and leveraged technical expertise to **develop an internal website** for centralizing training resources (Ebooks, Lesson Plans), significantly improving data accessibility and organization.

CERTIFICATIONS

Expected completion: Jun 2026

ECBA (Entry Certificate in Business Analysis) – IIBA | *Status: In progress*

Expected completion: December 2026

CAPM (Certified Associate in Project Management) – PMI | *Status: In progress*

EDUCATION

2021 - 2025

SOFTWARE ENGINEERING

Van Lang University

GPA: 3.28/4

NashTech
July 2024 - March 2025

SOFTWARE ENGINEERING

- **Served as both Developer and Assistant PM** for training projects (TCG Shop, Asset Management): Led **Agile/Scrum** workflows, managed backlog refinement, and tracked sprint progress using **Azure DevOps** to ensure timely delivery.
- **Engineered robust full-stack solutions** using **.NET Core** within a **Clean Architecture** pattern and **SQL Server**; built responsive front-end interfaces with **React Vite** and ensured code reliability through comprehensive unit testing with **xUnit**.
- **Transitioned expertise to the real-world 'Zenfolio' project**: Collaborated closely with the engineering team to apply these modern technologies in a production environment.
- **Key Achievement**:
 - **Professional Insight**: Gained hands-on experience in a production environment, understanding professional problem-solving mindsets and the effective collaboration of specialized roles within a software team.
 - **Methodology Understanding**: Developed a practical view of **Agile/Scrum** and **Waterfall**, learning to identify the right context for each approach to avoid rigid application.

Van Lang University
2022 - 2023

TEACHING ASSISTANT FOR A BASIC PROGRAM COURSE

- Assisted the lecturer in delivering course content by guiding students through programming exercises and clarifying complex concepts during and after class.
- Provided personalized support to students, ensuring they understood fundamental programming principles and could apply them effectively.
- Helped prepare learning materials, coding examples to enhance class engagement.
- Facilitated smooth class operations by coordinating communication between students and the lecturer, addressing academic concerns promptly.

ADDITIONAL PROJECTS

VLU GYMZ || Team size: 5
Jan 2025 - May 2025

TEAM LEADER & FULL-STACK DEVELOPER

Description: Led a team of 5 to deliver a comprehensive Gym Management System. Successfully balanced project management duties—including requirement gathering, task planning, and sprint tracking—with hands-on full-stack development using the MERN stack to ensure high-quality delivery.

Technology Stack:

- **Front-end:** ReactJS
- **Back-end:** Express.js (Node.js) || **Third-Party:** Momo, GHTK, Nodemailer
- **Database:** MongoDB, Firebase Storage

Link Github Back-End: <https://github.com/Sainoo19/GymZ-Backend.git>

VLU JobHunter || Team size: 3
June 2024 - July 2024

TEAM LEADER & BACK-END DEVELOPER

Description: Directed a team of 3 to build a comprehensive Job Recruitment Platform. Combined strategic planning and requirement analysis with hands-on backend engineering, utilizing Java Spring Boot to implement core features like resume parsing and real-time application tracking.

Technology Stack:

- **Front-end:** React Vite, TypeScript
- **Back-end:** Java, Spring Framework (Spring Boot, Security, JPA) || **Build Tool:** Gradle (Kotlin)
- **Database:** MySQL
