

Nguyễn Việt Trung

Project Coordinator / Business Analyst

0941047713

nvtrung19.work@gmail.com

Ho Chi Minh City, Vietnam.

Portfolio: <https://porfolio-mu-dusky.vercel.app/>

SKILLS

Project Management & Delivery

- Agile/Scrum, Waterfall, Sprint Planning, Backlog Refinement, SDLC, Risk Management, Stakeholder Communication, Release Planning

Business Analysis

- Requirement Elicitation, BRD/URD/SRS Documentation, User Stories & Acceptance Criteria, User Story Mapping
- Process Modeling (BPMN, UML), Wireframing (Figma), UAT Coordination, Product Demonstration

Automation & Workflow

- n8n Workflow Automation, API Integration, Process Automation, Data Flow Design

Technical Skills

- Languages & Frameworks: C#, .NET Core, Java (Spring Boot), JavaScript (ReactJS, Node.js), xUnit, Selenium
- Databases: SQL Server, MongoDB, Firebase
- Data Analysis: SQL, Power BI, Data Visualization
- Concepts: OOP, SOLID, Clean Architecture, RESTful API, MVC, etc.

Tools & Platforms

- Project Management: Azure DevOps, Jira, Confluence, Trello, Notion, Lark Suite
- Documentation & Design: Draw.io, StarUML, Figma, Microsoft Office
- Development Tools: Git, GitHub, Postman, Swagger

Interpersonal Skills

- Communication & Presentation, Cross-functional Collaboration, Problem-Solving, Adaptability

CERTIFICATIONS

Expected completion: Jun 2026

ECBA (Entry Certificate in Business Analysis) – IIBA | *Status: In progress*

Expected completion: December 2026

CAPM (Certified Associate in Project Management) – PMI | *Status: In progress*

EDUCATION

2021 - 2025

SOFTWARE ENGINEERING

Van Lang University

GPA: 3.28/4

WORK EXPERIENCE

Learning Chain

April 2025 - December 2025

ASSISTANT OPERATIONS DIRECTOR (PROJECT COORDINATOR & BUSINESS ANALYST)

- Led end-to-end project coordination for Blockchain and AI training programs. Acted as primary liaison among SMEs, management, and stakeholders to gather requirements, allocate resources, and ensure on-time delivery.
- Applied Agile/Scrum to translate high-level program objectives into detailed phases using Work Breakdown Structure (WBS); managed daily schedules and assigned granular tasks to team members.
- Facilitated daily stand-ups and authored weekly, monthly, and quarterly reports to track project progress and evaluate program performance against OKRs and KPIs.
- Monitored project execution metrics and performed quality assurance on all deliverables. Proactively identified risks and implemented mitigation strategies to achieve 100% alignment with project goals.
- Coordinated cross-platform digital delivery schedules, content production, and online training sessions while optimizing team workloads to maintain consistent delivery quality and prevent burnout.

Key Achievements

- Spearheaded the transition from ad-hoc workflows to structured Agile, boosting overall team productivity by **30%** in the first quarter. Developed 10+ standardized protocols and checklists, reducing preparation time by **45%** (from 4 hours to ~2 hours) with zero critical errors across 50+ training sessions from July 2025.
- Championed the adoption of Lark Suite and Notion, achieving 100% team migration within 2 weeks. Built a mini ERP system that centralized 300+ training assets and internal documents, cutting staff information lookup time by **60%**.

NashTech

March 2024 - March 2025

SOFTWARE ENGINEERING / BUSINESS ANALYST ASSISTANT

- Served as both Developer and Business Analyst Assistant for training projects (TCG Shop, Asset Management): Led Agile/Scrum workflows, managed backlog refinement, and tracked sprint progress using Azure DevOps to ensure timely delivery.
- Engineered robust full-stack solutions using .NET Core in Clean Architecture with SQL Server backend and React Vite frontend; ensured high code quality through comprehensive unit testing with xUnit.
- Applied modern technologies to the real-world 'Zenfolio' project, closely collaborating with the engineering team in a production environment.

Key Achievements

- Gained hands-on production experience, developing professional problem-solving skills and understanding effective collaboration across specialized roles in a software team.
- Built practical understanding of Agile/Scrum and Waterfall methodologies, learning to select the right approach for each context and avoid rigid application.

Van Lang University

September 2022 - September 2023

TEACHING ASSISTANT FOR A BASIC PROGRAM COURSE

- **Operational Coordination & Progress Tracking:** Acted as the primary liaison between the lecturer and 40+ students. Managed daily logistics, tracked performance metrics, and delivered timely progress reports to facilitate early interventions.
- **Mentorship & Documentation Management:** Mentored students on technical concepts and standardized course materials/guidelines, significantly optimizing the training workflow and reducing the lead lecturer's workload.

ADDITIONAL PROJECTS

English Language Center Management Website - AMAZING GROUP

January 2026 - Now

BUSINESS ANALYST - FREELANCE

- Spearheaded digital transformation by designing a centralized management website to replace fragmented Excel/Google Sheets workflows, preventing data loss and optimizing internal operations.
- Optimized system architecture and workflows through competitor analysis and detailed mapping of complex academic processes, defining core modules including scheduling, attendance tracking, performance evaluations, homework management, HR timesheets, and tuition collection.
- Authored comprehensive technical and business documentation, including User Requirement Documents (URD) and Software Requirements Specifications (SRS).
- Bridged business and technical teams by overseeing feature implementation and providing hands-on coding support during critical sprints, ensuring all project milestones were delivered on time.

TEAM LEADER & FULL-STACK DEVELOPER

Description: Led a team of 5 to deliver a comprehensive Gym Management System. Successfully balanced project management duties—including requirement gathering, task planning, and sprint tracking—with hands-on full-stack development using the MERN stack to ensure high-quality delivery.

Technology Stack:

- **Front-end:** ReactJS
- **Back-end:** Express.js (Node.js) || **Third-Party:** Momo, GHTK, Nodemailer
- **Database:** MongoDB, Firebase Storage
